

Investment Highlights

Driving Shareholder Value

Strong Board, Management, and Technical Teams

Highly disciplined and seasoned professional team with successful track records in resource financing and development.

Critical Metals Market

Electric Vehicle demand is creating a market supply imbalance that will drive Battery Metal prices on a 10 -Year appreciation trend.

World-class Flagship Project

The prospective brown field Copper Dome Project is contiguous to the Copper Mountain Operating Mine.

Sub \$5M Market Cap

The Company's market cap is under \$5M. This provides ample growth opportunity and share price appreciation in the market.

Mitigated Exploration Risk

Excellent infrastructure, year-round access, low-cost exploration, low-jurisdictional risk, and project ownership all assist in reducing the overall project risk profile.
